

Atalante Saint-Malo

A Science & Technology Park for high-tech companies specialising in **Marine Biotechnologies** and **Information and Communication Technologies**.

Cosmetics
Marine Biotechnologies
Nutrition
Health
Information and Communication Technologies

- > Do you want to work in a town with an **international influence**?
- > Do you want to **cooperate with research teams** specialising in marine biology resources?
- > Do you want to be close to the **Mer Bretagne, Valorial and Images & Réseaux** competitiveness clusters?

Come to the site Atalante Saint-Malo

In this coastal district, you'll find:

- **Scientific expertise** in biotechnologies, chemistry, fish farming and the sea within **Biogenouest**, a network of technology platforms for the sea-agriculture-health and bioinformatics sectors
- Internationally famous companies making optimum use of **marine biological** resources (Goëmar, Roullier Group etc.)
- **7 research laboratories**:
IUT - University of Rennes 1 (signal and image processing, mechanics of structures and materials, electronics and telecommunications, economics and management), Ifremer, the National Museum of Natural History, CNRS Geomorphology and Coastal Environment Laboratory
- An **IUT** awarding 4 diplomas (2-year and 3-year higher education courses): Management of Companies and Public Bodies, Industrial Engineering and Maintenance, Telecommunications Engineering and Networks, and Law.
- **25 higher education courses**
- High-level equipment for **international scientific conferences**
- Emergys **business incubator**
- An **experimental plot** for coastal biological resources (Cresco)
- Direct **TGV service** (high-speed train) from Paris (2 hrs 56 mins)
- **Dinard-Pleurtuit-Saint-Malo Airport**, a 15-minute drive away

>>> The Rennes Atalante association will help you to become part of the park's networks of companies and players in the research sector (invitations to conferences, contacts with partners, listing in the park's directory and website...).

Goëmar (60 pers.) optimises algae and seawater to improve the health of plants.

The IUT (technology institute) in Saint-Malo (part of the University of Rennes 1) welcomes an annual intake of more than 550 students.

C.Ris Pharma carries out preclinical studies for pharmaceutical and cosmetic laboratories.

Located less than 3 hours from Paris, Saint-Malo provides companies and their staff with an exceptional environment in which to live and work.

R&D laboratories, service companies, start-ups etc.

Be where the future is!

Atalante Saint-Malo

A **70-hectare site** for innovative companies, near a network of players within Saint-Malo who are part of the dynamic of Rennes Atalante Science Park.

- > 5 km from the town centre and beaches
- > 5 km from the station
- > 15 mins from Dinard airport
- > 45 mins from Rennes

- Project of main highway
- Freeway
- Demarcation of the site

> If you're seeking premises or land, contact:
Saint-Malo Agglomération
Direction du développement économique
Tél. +33 2 23 15 10 10

> If you want information about the economic and scientific players in a given sector or you have a business start-up project, contact:
Rennes Atalante

Companies

Enhancement of marine biological resources

- ABC Texture
- Biotysens
- C.Ris Pharma
- C-Weed Aquaculture
- Centre de recherche international agro sciences (Roullier Group)
- Compagnie des pêches Saint-Malo Santé
- CVPA
- Goëmar
- Kellia
- Laboratoire Aditec (Roullier Group)
- Laboratoire de la mer - CH Pharma
- Laboratoire Timac (Roullier Group)

Electronic and ICT

- Abelium Informatique
- Acsen
- Amedim
- Art Image 3D
- Asica
- Delta Dore
- Estar
- Exhalia
- Happy Blue Fish studio
- Hommes & Process
- Pixel vivant
- Technisolar Séni
- WaveUp

Higher education and research

- Centre de recherche et d'enseignement sur les systèmes côtiers (Cresco, coastal systems)
- Ecole nationale de la marine marchande (national merchant navy college)
- Ifremer (marine research)
- IUT (University technology institute)
- CNRS laboratory (Geomorphology and coastal environment)
- National Museum of Natural History

Facilities

- Hôtel de la technopole (business incubator)
- Emergys business incubator
- Le Cap business incubator
- Relay workshops

Park locations

15 rue du Chêne Germain • 35510 Cesson Sévigné • France
