

Rennes Atalante Beaulieu

A site to set up companies of the **Electronics** and **Information** and **Communication Technology** sector, in the heart of a scientific campus of 15 000 people.

- You wish to collaborate with the research teams of the university as well as those of the research centres and engineering colleges ?
- You look for the proximity of the engineering colleges in the ICT sector ?
- You desire to develop a partnership with innovative companies within a science and technology park which gathers numerous private research centres.

IETR gathers 250 researchers of which 108 Ph.D are specialised in electronics and telecommunications.

the university and five engineering colleges train the ICT specialists of the future in Rennes.

Thomson R&D develop and design audiovisual technologies and products of the future in Rennes.

The business incubator Germanium host young innovative companies working in the ICT sector

Come to the site Rennes Atalante Beaulieu:

You will find:

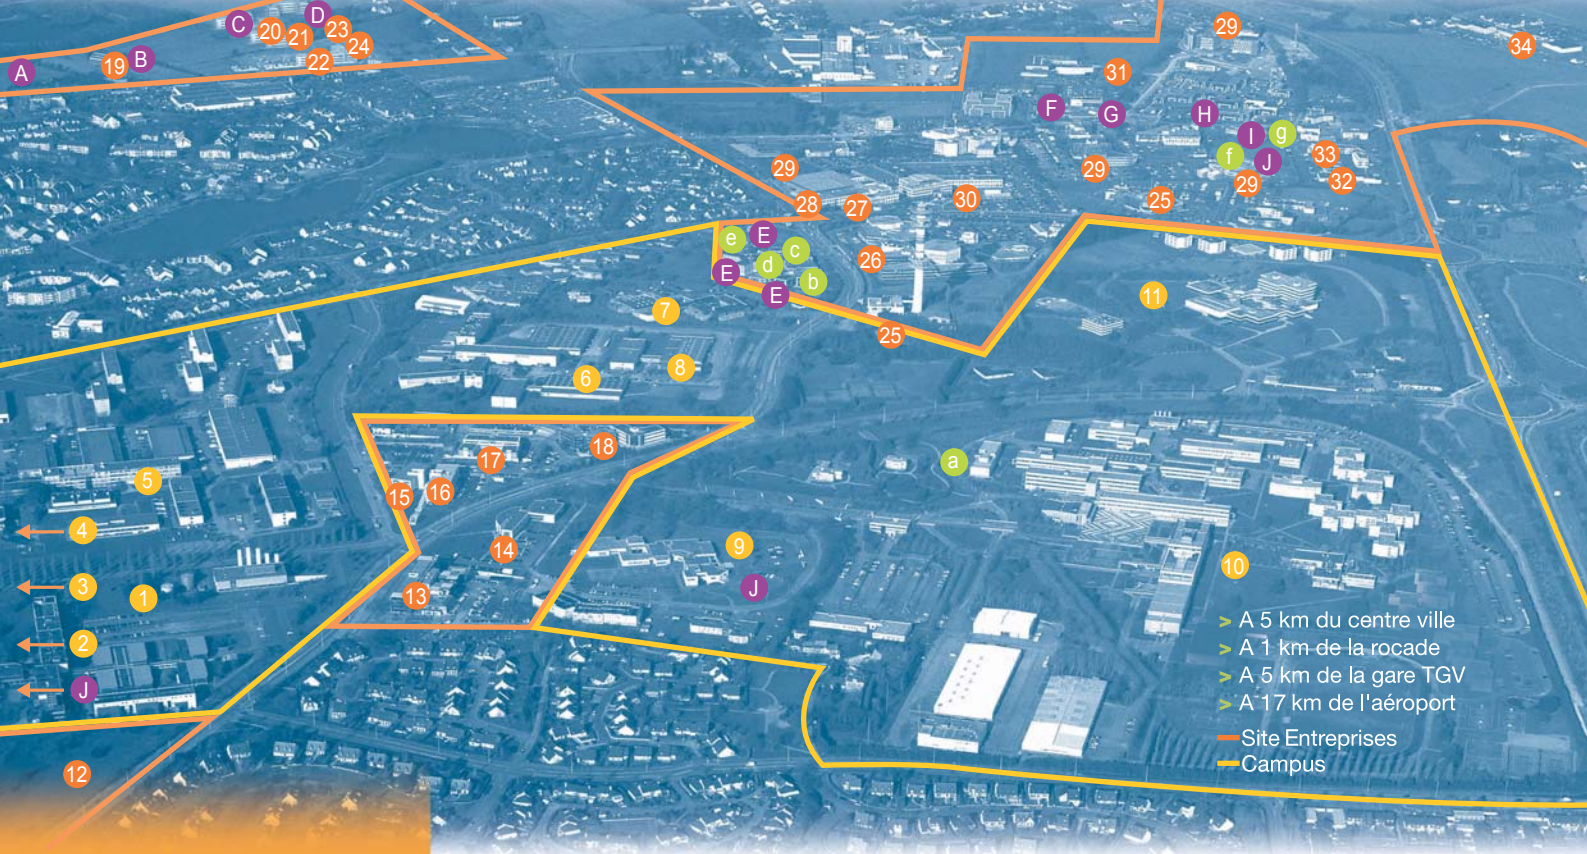

- a university town of 58 500 people of which 5 200 are studying electronics and ICT
- 745 graduated engineers per year in electronics and ICT
- numerous scientific skills within public research teams in the ICT sector
- a unique set of technical platforms: clean rooms, anechoïd chambers, virtual reality center, Grid'5000, biocomputing, Echo 3D, IPv6 platforms
- the 2 business incubators Gallium et Germanium
- the public research incubator Emergys
- Premises and rental of offices
- a restaurant and a nursery for companies.
- six bus lanes (with a connection with the subway).

R&D centres, start-ups, service companies...

Make sure you're where the future lies

The Rennes Atalante Association will help you to become part of the park's networks of companies and players in the research sector (invitations to conferences, contacts with partners, listing in the park's directory and website...).
